

Section 2:

Short bio-data of the Nominee (max 500 words):

Xu Rong, Richard, PMP / MBA / MSC, has more than 20 years' experiences in designing, implementing and managing Information Systems & projects. Richard received his Bachelor Degree from Shanghai Tongji University (China) in 1992, his first Master (of Science) from Nanyang Technological University (Singapore) in 1999, and his second Master (of Business Administration) from University of Hull (UK) in 2002.

Richard has been playing IT managerial role as Vice President in United Overseas Bank for more than 15 years. As a Project Management Practitioner, he has successfully managed/delivered numerous IS projects with total project budgets more than 50 million dollars. **Richard was also a part-time lecturer in Nanyang Technological University responsible for developing and delivering IS Courses for Master Program.**

Richard has been a PMP and PMI member since 2003, and he was the Board Member of SPMI (2013-2014) and the Chair of 2013 SPMI Annual Symposium. With his leadership, the SPMI Symposium committee achieved record attendees, record revenues and record surplus for the SPMI 2013 Symposium. Due to Richard's significant contributions to the Society, he received the SPMI President's Award in 2013. Also, Richard was the team member of PMBOK (2004) Chinese Translation Verification Committee.

Short description of how nominee intend to contribute to the chapter (max 500 words):

As an IT Project Management Practitioner, involving in PMI SG Chapter works will enable me to contribute values in the following three areas: -

1. As an IT Project Management Practitioner, being a secretary of the Society will help facilitate the development and improvement of the platforms to provide leadership in knowledge sharing, panel discussion and industry practice development
2. It will also enable us to promote and inspire new players in the Project Management careers for knowledge education, competence development and ultimately building competitive advantage
3. It will promote the development in PM domain knowledge, especially with the correlation of PM and system engineering, as well as the industry practice.
