

Project Management Institute Singapore Chapter

20 Bendeemer Road, #04-02 CyberHub, Singapore 339914

Section 2:

Short bio-data of the Nominee (max 500 words):

I have over 25 years of software development and management experience. Currently I am holding a Senior Manager position at Oracle Corporation holding responsibility for Engineered Systems, Cloud Computing, and Data Center infrastructure for Partner Solution Centers across APAC. These centers are key to Oracle's strategy of using Oracle's technology to build solutions with wide ranging impact to businesses. In this role I have the responsibility for implementing PM process in addition to apply technical solutions to achieve business goals.

My association with PMI Singapore chapter goes as far back as 2003, when we had only handful of members. From then until 2010, I was an active volunteer and part of the team who build the chapter to current level under the leadership of Alex Siow. During this period, I have held may positions in the board such as a volunteer, Board Member, Asst Secretary, Secretary, Vice Chair for Programs, Vice Chair for Communication and Publicity, Chairman for Symposium and Professional event, etc.

Short description of how nominee intend to contribute to the chapter (max 500 words):

My past contribution to SPMI are as the Chairman for Symposium, I was instrumental in making significant changes to the Symposium such as making it a two day event, introduction of sponsorship packages etc., which was a foundation for today's successful Symposium. These changes to Symposium resulted in generating highest revenue collection in the chapter's history while maintaining lower cost to the members. I was instrumental to bring quality speakers such as Dr. Kerzner and also for the first time incorporated the Project Management Day live webcast as part of Symposium. I had also introduced tools to improve effective communications with the Chapter members.

If elected this term as a Vice President, I will work collaboratively with the other board members and volunteers to ensure we focus our efforts on maximizing value delivered to our members (you), be it on creating more avenues to acquire PDUs, continuing education or creating opportunities to other members to contribute back to the project management profession through volunteering.

With your choice at the AGM, I look forward to serve you and the SPMI board to increase the value of your membership and reach out to new SPMI members!
