Nadine Yap is currently the Chief Product Officer of Temasys.io, and Adjunct at NUS ISS Stackup program, Nadine has 20+ years experience in technology product and program management, having worked with early and late stage startups as well as tech giants like Amazon.com and Yahoo! She was VP Product at Viki (acquired by Rakuten), Dir of Product Marketing for Y! Southeast Asia, and Technical Product and Program Manager at Amazon.com (Target, Customer Reviews, AWS).

Synopsis:

Scaling Product Management & Innovation

Product Management at a tech startup is inherently uncertain.

How can we learn from startup best practices and scale them with company size?
